SW AP316 Creating and Updating an Employee Profile

About Creating and Updating an Employee Profile

An employee profile must be entered in Cardinal before:

- An employee can be granted access to Cardinal
- An employee’s travel or expense transactions can be entered or reimbursed

The employee profile contains the employee name, address, employee status, Agency Business Unit, department, supervisor, cash advance level, and payment information (such as EDI bank account information).

Employee Profiles can be added and updated by agency users with the Employee Profile Maintenance role. Profile maintenance includes changes of address, department, default distribution ChartFields, optional user defaults, supervisor changes, or Employee Status.

Adding a Proxy

In order to have expense transactions entered, every employee must have at least one proxy (authorized user) set up. After creating the employee profile, be sure to add a proxy or proxies for every employee profile created. See the job aid entitled **SW AP315 Authorizing a Proxy for an Employee** for the steps needed to complete that process.

The Cardinal Remittance Electronic Data Interchange (REDI) Authentication Interface process verifies all newly created employee accounts in the REDI Virginia system.

Banking information is interfaced daily from the Commonwealth Integrated Payroll/Personnel System (CIPPS). The DOA EDI Coordinators have access to enter this information when necessary (e.g., when CIPPS update has not yet been processed).

An Employee Profile can be created online or uploaded into Cardinal via an interface. All interfaced files are processed in the nightly batch.

This job aid provides details for creating and updating an employee profile online in Cardinal.

Message

Warning -- No match found for Employee ID 00123456700 in Cardinal CIPPS EDI data. (25003,102)

The Employee ID entered does not match the Cardinal CIPPS EDI Data. This could be due to one or more of the following reasons:

- Employee ID is entered incorrectly. Typically, the Cardinal Employee ID is the same as the 11-digit CIPPS Employee ID.
- Employee has not signed up for direct deposit in CIPPS.
- Employee is a new hire and their direct deposit data has not been entered in CIPPS.
- Employee is exempt from using their payroll account for expense reimbursements.

SW AP316 Creating and Updating an Employee Profile

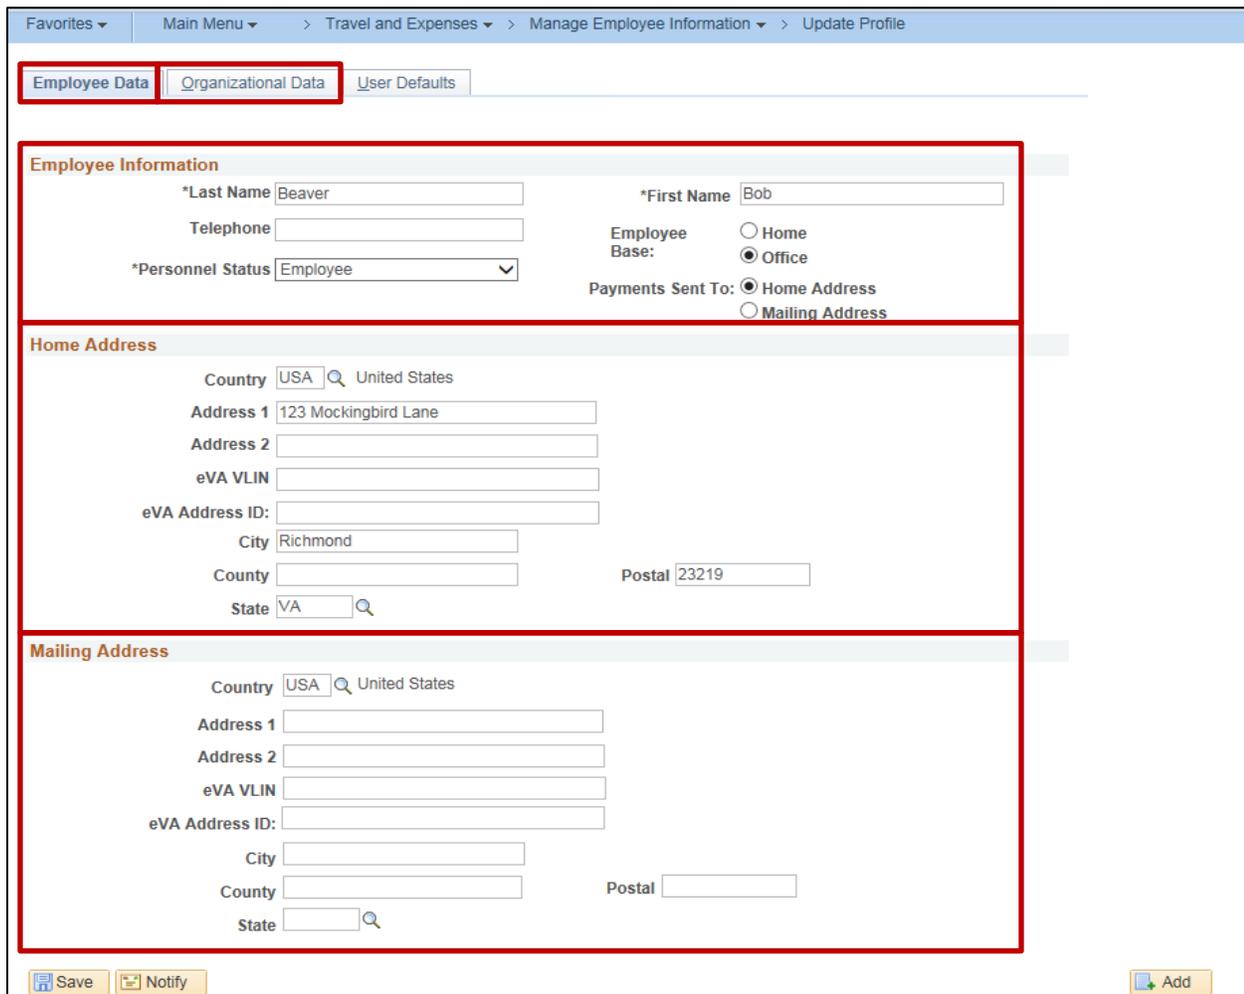

- 8 All employee banking information is interfaced daily from CIPPS. If the information does not match data in CIPPS, a **Warning** message like the one above displays.

The CIPPS interface is run in the nightly batch daily. The interfaced EDI Data is stored in the Cardinal archived CIPPS tables, so this is not an online direct feed from CIPPS when adding the employee.

Due to timing, the employee's banking information may not be added until the next run of the CIPPS interface. The employee will be reimbursed by check until this information is updated.

Any questions regarding the employee banking information should be addressed to the DOA EDI Coordinator. The Bank Account tab on the Employee Profile is only visible to the EDI Coordinator because it contains sensitive (i.e., personal banking) information.

- Validate that the **Employee ID** is correct and should be added. Then click the **OK** button to continue entering the employee profile.
- If the **Employee ID** is incorrect and should not be entered at this time, click the **Cancel** button.

- 9 The **Employee Data** page displays. Complete the information under the **Employee Information** section of the page:

SW AP316 Creating and Updating an Employee Profile

19 The User Defaults tab allows you to specify user default values that reduce data entry for travel authorizations, expense reports, and cash advances. These values can easily be changed on the expense transaction by the proxy during data entry if necessary. Suggested defaults:

- a. Expense Defaults section:

Accounts Payable Job Aid

SW AP316 Creating and Updating an Employee Profile

- i. Select **Payment Type CHK** as a user default. This field is required on all Travel Authorization and Expense Report lines and if set as a default, it will auto-populate each line when creating a Travel Authorization or Expense Report for the employee. This does not mean the employee will be reimbursed by check. Employees will be reimbursed via their setup on their Bank Accounts tab.
 - ii. In the **Accounting Detail Default View** field, select **Expanded**.
- b. Enter Project defaults if an employee requires this information on all expense reports. Click the **Enabled** check box in order for these Project ChartFields to default on the employee Travel Authorizations and Expense Reports.
- 20** Click the **Save** button at the bottom of the page to save the employee profile. After saving the employee profile, it must be validated before it can be used on an expense transaction. Cardinal verifies that the employee's organizational data is valid and the employee is eligible for expense processing. The validation process runs every hour in batch between 8-5 daily. The **Valid for Expenses** field on the **Organizational Data** tab updates to **Yes** and the **Reason for Status** field updates to **Passed All Validation Edits**.
- 21** Remember to add at least one proxy for the employee in order to process expense transactions on behalf of that employee. See the job aid entitled **SW AP315 Authorizing a Proxy for an Employee** for the steps needed to complete that process. Job aids are located on the Cardinal Website, in the **Statewide Toolbox**.

Employee Working for Multiple Cardinal Agencies

If the employee is working for more than one state agency, a profile must be created for each agency from which the employee is requesting a reimbursement of expenses:

- 1 Create an alternative Employee ID number that will be used for your agency.
- 2 The new ID should be the nine digits from the State Employee Human Resources ID number and 01 as the suffix (ex: 00000123401). This alternative Employee ID number is used for all Expense Transactions created by your agency for this employee.
- 3 Once you create that alternative Employee ID, enter the employee profile by following the steps in the **Creating a New Employee Profile** section of this job aid.

Updating an Employee Profile

If the Employee Profile already exists, there are various reasons why you may need to update it. Review the Employee Profile Maintenance form and/or discuss with the employee to determine which scenario is applicable:

- Employee works for your agency and requires changes (e.g., moves to another department, requires changes to the default ChartField values, assigned to a new supervisor, etc.).
- Employee moves from one state agency to another state agency.
- Employee leaves your agency and you need to update the status to terminate.

Employee Works for Your Agency and Requires a Change

If an employee works for your agency and requires a change, access the **Employee Profile (Edit)** page using the following path:

Employee Moved from One Cardinal Agency to Another Cardinal Agency

If an employee has moved to your agency from another Cardinal agency, there are several steps that you will need to complete.

Example: If an employee is leaving Agency A and moving to Agency B

Agency A must:

- Change the employee status on the profile to Terminated for your agency.
- If this employee is a Supervisor (approving other employee's expenses at your agency), remove them from the Supervisor role for all impacted employees and update with new Supervisor.
- Delete all proxies for that employee. See the job aid entitled **SW AP315 Authorizing a Proxy for an Employee** for details.

Agency B must:

- Create and submit a Help Desk Ticket (see step 1 below for details of how to structure the Help Desk ticket).
- Add a proxy / proxies for the employee. See the job aid entitled **SW AP315 Authorizing a Proxy for an Employee** for details.

- 1 Open a Help Desk ticket addressed to Cardinal Security to request them to make changes on the employee profile. The email address for statewide requests is: vccc@vita.virginia.gov.

This allows you to update the profile with your agency Business Unit, the correct supervisor, and default ChartField information. See below for a sample e-mail:

To: vccc@vita.virginia.gov

Subject: Cardinal – Security Employee Profile Change Needed Employee ID: XXXXXXXXXXXX

Please make the below update to the employee profile for XXXXXXXXXXXX. This employee has moved from Cardinal Business Unit XXXXX to YYYYY.

For proper Expense Module processing, the below information must be updated so that agency XXXXX has access to make the remaining updates.

We understand the employee must be Terminated from the original BU, so please let us know if processing time will be longer than normal.

Employee ID: XXXXXXXXXXXX

Name: <Employee full name in Cardinal>

Former Business Unit: XXXXX

New Business Unit: YYYYY

New Department: XXXXX (size depends on the BU)

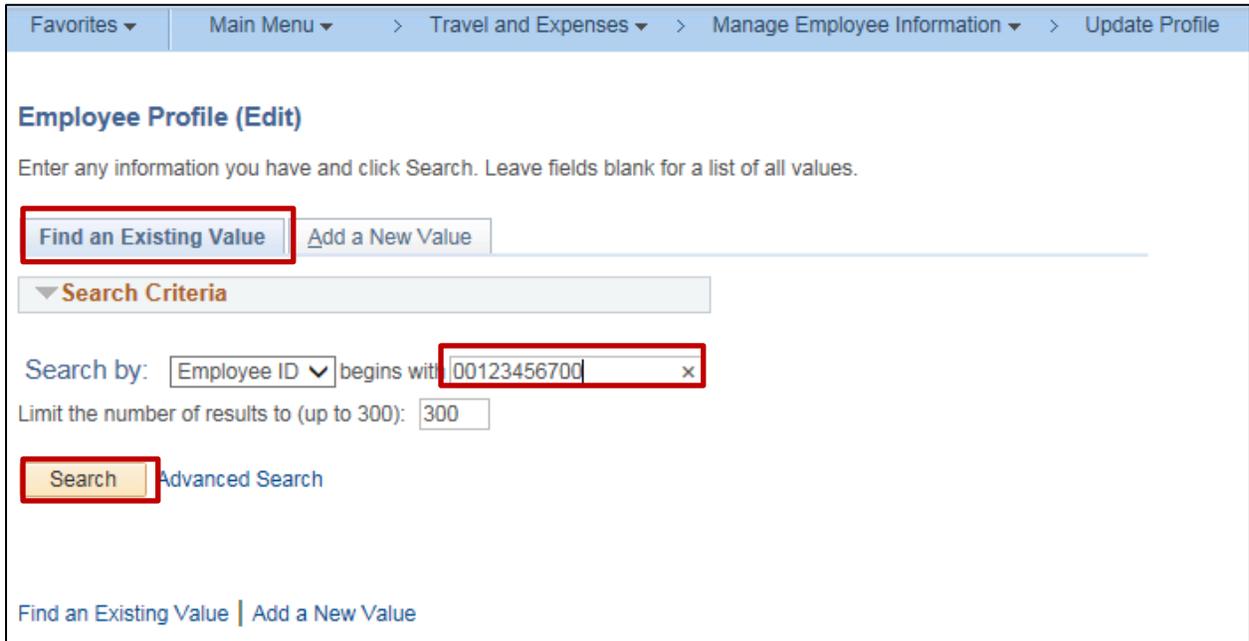

New Supervisor Employee ID: XXXXXXXXXXXX

New Supervisor Name: <Employee Name in Cardinal>
